Art Clusters & Multidisciplinary Workshop

The clusters – “pôles” – are meeting points and places of convergence between several orientations. Their role is to confront and blend knowledge and practices. Each cluster possesses its specific, multidisciplinary workshop.

2nd cycle Specialized Masters

+ **Art Practice – Critical Tools** -> 2 masters

>>>>>>>> L.I.E.N.S. (In French: Places, Interdisciplinarity, Ecology, Necessity, Systems)

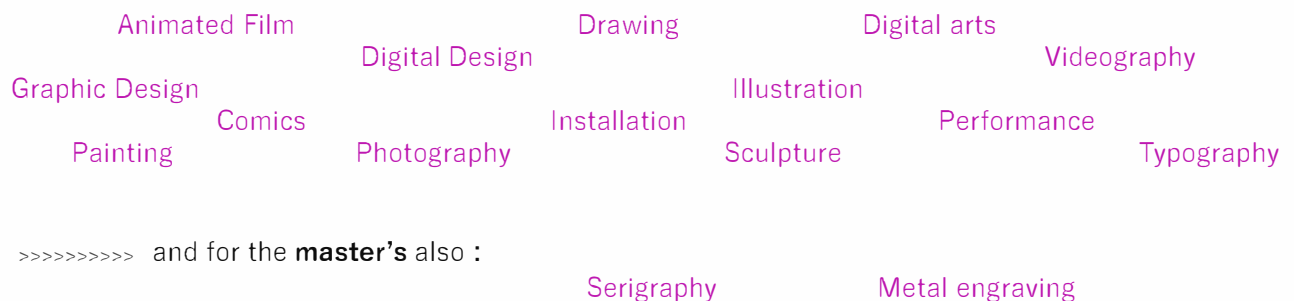

>>>>>>>> Situated Practices Workshop

+ **Narrations and Experimentation**

+ **Graphic Politics and Experimentation**

Orientations

Students choose one orientation among the 13 proposed, each of which is linked to a cluster. To allow students to choose with the full knowledge of the facts, all workshops are open during the first week of the academic year, and teachers are invited to describe the content and objectives of their courses.
